

27 October 2003

ATTN: To the Supreme Court Clerk of Michigan

I am appealing to this court to abolish and reject any thought to entertain the notion or passage of the proposed Court Rule No. 20034-47 petition which is being initiated by the law firm of Dickinson Wright, and proposed to the Michigan Supreme Court by the Senior Attorney and the Managing Partner Dennis Archer.

I am totally appalled that any unconscionable, unreasonable, unfair, unjust and repulsive petition is being asked of this court. It is with the utmost disregard for the constitutional and state rights of people in Michigan who are afflicted with the deadly disease of asbestosis who wish to seek and recover damages against the manufacturers and the property owners who allowed asbestos to be used by workers.

To deny these victims of their right to a jury trial would be a travesty of justice.

Thank You,

Robert S. Roza  
(Retired Senior)

Robert S. Roza
